LinkedIn: www.linkedin.com/in/sandeepreddysomuurl

PROFILE SUMMARY

Proficient in SQL, Python, and C with a solid understanding of database management and programming fundamentals. Completed a MySQL internship, gaining hands-on experience in real-time data analysis using SQL Server. Certified in IoT, Embedded Systems, and AI, with academic projects involving sensor integration and circuit design. Skilled in writing optimized SQL queries and solving logical problems efficiently. Strong team player with good communication skills and a quick learning ability. Eager to begin a career in software development, database management, or quality assurance roles.

EDUCATION

- B. Tech in Electronics and Communication Engineering — 2022-2026
  Sathyabama institute of science and technology — CGPA: 7.66/10
- Intermediate — 2020-2022
  Sri Chaitanya junior college — CGPA:9.3/10
- Indian public School — 2019-2020
  GPA: 9.8/10

TECHNICAL SKILLS

- **Programming Languages**: Python, C (basic)
- **Technologies**: HTML, CSS, JavaScript
- **Framework**: Node.js
- **Web tools**: VS code
- **Database**: SQL, MYSQL
- **Common skills**: MS word, MS office, Excel, Power Point

ACADAMIC PROJECTS

Implementation of an first person view Drone for an autonomous(Major project)

- Designed and developed an FPV drone capable of autonomous navigation using onboard sensors and a flight controller.
- Integrated hardware components including the flight controller, FPV camera, motors, ESCs, GPS, and communication modules.
- Implemented autonomous flight features such as waypoint navigation, obstacle detection/avoidance (if applicable), and real-time telemetry.
- Conducted system testing, calibration, and performance optimization to improve flight stability and navigation accuracy.
- Gained hands-on experience in drone systems, embedded systems, sensor integration, and autonomous control.

Solar Tracking System (Mini project)

- Designed and developed an automated solar tracking system to maximize solar panel efficiency.
- Implemented sensor-based tracking using a microcontroller and DC/servo motor.
- Improved solar energy capture by continuously aligning the panel with the sun.

SOFT SKILLS

- Strong problem-solving skills with the ability to analyze challenges and develop effective solutions.
- Good communication and interpersonal skills, enabling effective collaboration within teams.
- Quick learner with the ability to adapt to new technologies and changing work environments.
- Excellent time management and organizational skills to complete tasks efficiently and meet deadlines.
- Team-oriented individual with a positive attitude and a willingness to contribute to shared goals. growth.

HOBBIES

- Learning new technologies
- Building electronics and embedded system projects
- Exploring drone and UAV technologies
- Coding and problem-solving
- Reading technology blogs
- Playing badminton
